## Panettone and Pandoro

### FIASCONARO:

Over the centuries Sicily has been celebrated for the quality of its pastries. FIASCONARO, a family run company, continues that ancient tradition through three generations of master confectioners. FIASCONARO uses only authentic recipes and the ingredients are the finest to be found in the region, fragrant citrus fruit, tender almonds and pistachios, and plump sultanas. Their baked products are distinguished by a natural leavening process, a slow fermentation method which lasts as much as 36 hours. Their respect for the pure flavors of locally grown produce, seasonal sensibility, and unshakable faith in tradition has resulted in success both at home and internationally.
